

Akshay Kumar Singh

akshaysinghwork@gmail.com | +44 77675 61673 | [LinkedIn](#) | Manchester (Open to relocation)

Capital markets professional with around 6 years of experience across trading, market risk, portfolio analytics and investment decision support, complemented by an MBA from Manchester Business School. Brings strong understanding of capital markets products, portfolio risk drivers and performance analysis, with experience in structured problem solving, stakeholder management and executive communication. Background spans derivatives, money markets, regulatory reporting, automation and AI-driven market intelligence tools.

Work Experience

Pitalia Capital - Consultant, Portfolio & Derivatives Analytics | Bolton, UK Jul 2025 - Dec 2025

- Developed risk and performance reporting across positions, P&L and exposure drivers, including tail-risk and 99% CVaR analysis, improving visibility over portfolio behaviour and strengthening decision support for senior stakeholders.
- Advised on portfolio performance and risk-return trade-offs for a leveraged multi-asset derivatives book, decomposing c.£1.4m cumulative returns into carry, spot, volatility and financing drivers to support investment discussions.
- Conducted secondary research and hypothesis-driven analysis across market catalysts, portfolio positions and company filings, translating findings into structured recommendations for investment discussions.
- Implemented a VBA-based holding-cost and margin workflow from scratch to calculate position-level financing across asset classes, identify £500K of financing drag and improve daily control over funding and risk monitoring.
- Orchestrated a 6-agent AI market intelligence platform using a 35-year macro data lake, achieving 97.6% retrieval accuracy in auto-triggered data fetches and improving the grounding of market commentary.

Bank of America - Assistant Manager, Market Risk | Mumbai, India Mar 2022 - Aug 2024

- Managed desk-level risk and capital analysis across a c.\$70Bn RWA multi-asset trading business under Basel III / FRTB, advising trading and risk teams through exposure oversight, portfolio commentary and management reporting.
- Supported implementation of IRC/CRM risk reporting for the Capital team, contributing to c.\$2.4Bn of modelled credit risk capital reporting and strengthening regulatory reporting processes.
- Produced executive-ready analysis of P&L, VaR/SVaR and exposure drivers, partnering with onshore traders and risk managers to translate desk movements into clear commentary for senior stakeholders.
- Led the redesign of fragmented templates and automated report population, extraction and reconciliation using VBA and Python, reducing turnaround time by 70% for recurring management reporting and desk requests.
- Delivered desk risk-limit workflows across multiple businesses, gathering requirements, documenting approvals and tracking implementation on JIRA for limits ranging from \$1M to \$100M.
- Managed a 6-member team in a cross-functional review of desk sign-off data across onshore trading and risk teams, cutting cycle time by 8%.

Futures First Info Services - Senior Market Analyst, Capital Markets | Gurugram, India Mar 2020 - Feb 2022

- Supported front-office trading across listed interest-rate derivatives, including Fed funds, Treasury and DI futures, with c.\$500K average monthly notional traded, while analysing macro drivers and monitoring positions across the trade lifecycle.
- Produced structured market and macro analysis using correlation, z-score and scenario analysis, improving trade evaluation and contributing to monthly P&L improvement from \$100K to \$280K.
- Supported settlement and position reconciliation, helping resolve booking breaks, monitor hedge alignment and improve post-trade accuracy.
- Advised on in-house versus external clearing models through a cost-benefit analysis, supporting a reduction in transaction costs of \$0.30 per trade.

Futures First Info Services - Market Analyst, Capital Markets | Gurugram, India Feb 2019 - Feb 2020

- Built a Reuters-to-Excel Brazilian yield curve model (1M - 10Y) used by traders for futures pricing and event-driven risk-premium moves.
- Maintained daily trade logs and position sheets, identifying mismatches in executed trades and improving booking accuracy and process discipline.
- Managed end-of-day reconciliations across 100+ executions, validating fills, contract months and quantities to improve booking accuracy and strengthen control over multi-leg positions.

MBA Consultancy Projects

Vestergaard - Consultant | Manchester, UK Jan 2026 - Mar 2026

- Advised the client on mapping state-level regulatory and product-level certification requirements for U.S. market entry.
- Conducted primary and secondary research, collating insights into a GTM strategy projecting \$15.4M revenue potential across three priority states.

The Vegetarian Society - Consultant | Manchester, UK Mar 2025 - Jun 2025

- Developed a B2B go-to-market strategy and financial model, leveraging primary research and scenario analysis to define a path to breakeven.
- Designed a carbon-savings reporting framework to support a digital consultancy offering projected to generate £58K in revenue.

Education

Alliance Manchester Business School - MBA, Finance | Manchester, UK Sep 2024 - Mar 2026

- Built market-entry and commercial models in MBA consulting projects, turning research and financial inputs into growth recommendations.
- Led commercial due diligence and valuation for Venture Capital Investment Case challenge to support a £0.5M investment for an 11% stake.

Birla Institute of Technology - Bachelor of Engineering, Industrial Engineering | Mesra, India Aug 2015 - May 2019

- Built a Python-based NPV model for project portfolio optimisation, enabling data-driven investment decisions and portfolio risk analysis.
